Darrell Cameron  
Cell: (902) 229-9781

*SystemCare Environmental - NS services all of our mainland Nova Scotia offices with specialized remediation contracting services*

Laurie and his team are fully equipped to handle all types of remediation projects with an extensive stock of Negative Air Units, HEPA Vacuums, excavators, dump trailers and other specialized equipment that is required and expected for a full service remediation contractor.

Laurie is a member of:

- American IAQ Council
- Association of Professional Engineers of Nova Scotia (APENS)
- ASHRAE
- NS Environmental Industry Association (NSEIA)

IICRC courses they have include:

- Water Damage Restoration (WRT)
- Fire & Smoke Restoration (SRT)
- Applied Structural Drying (ASD)
- Applied Microbial Remediation Tech. (AMRT)
- Odour Control Technical (OCT)
- Mould CEC Course (MCEC)

Darrell has been involved for years in dealing with many large oil spill remediation projects. Darrell believes in hands on project management and communications between all parties.

They have also successfully completed numerous other courses, such as:

- Certified Microbial Remediation Supervisor (CMRC) by the American IAQ Council
- Asbestos Remediation
- St. John's Ambulance First Aid
- Numerous NSCSA Safety Courses
